

Board/Authority Authorized Course
Vlearn
Sport Development 11

School District/Independent School Authority Name: Vernon School District	School District/Independent School Authority Number (e.g. SD43, Authority #432): SD #22
Developed by: Rod Peters	Date Developed: March 1, 2019
Superintendent Approval Date (for School Districts only): March 13, 2019	Superintendent Signature (for School Districts only): On course form
Board/Authority Approval Date: March 13, 2019	Board/Authority Chair Signature: On course form
Course Name: Sport Development	Grade Level of Course: 11
Number of Course Credits: 4	Number of Hours of Instruction: 110

Board/Authority Prerequisite(s): Students interested in Sport Development courses must meet the requirements for acceptance determined by the sport specific Director. Sport Development 11 is the second level in this course stream, and it is recommended that students have had success in Sport Development 10.

Course Synopsis: The Sport Development 11 course will cover intermediate to advanced levels of theory and practical aspects of sport. These courses will focus on the Train to Train and Learn to Compete stages of the given Sport Governing Bodies Athlete Development Pathway. These courses follow a "whole athlete" approach that provides progressive development in a sport specialization for those who want to compete at the highest level, maximizing their physical, mental and emotional development. In addition to building on theory and practical components, students will develop skills and resources to explore becoming a team leader for the younger students while also exploring all related career opportunities associated with their expertise in the sport. Students will also develop their personal goals and track them through frequent planning and reflection. Other components of this course include understanding key components of sport physiology, sport psychology, nutrition, and healthy lifestyles. This program will be delivered under the guidance of a qualified BC Teacher in combination with certified sport specific qualified coaches. Students will be expected to complete research, participate in discussions, complete training logs and periodic reflections, and various other assignments related to their physical and mental development. Face-to-face training will occur during the school day and possibly outside the school timetable. Students will demonstrate learning related to their online coursework and sport specific training based on the following components: Planning, Self-Reflection, Assignments, Discussions, Leadership and Physical Participation.

Goals and Rationale:

The goals and rationale of Sport Development 10 to 12, offered through School District 22, is to provide a formal training program, within the school timetable, that is committed to academic and athletic excellence. This program is designed to create increased sport specific training and educational opportunities for students committed to excel in their sport. School District 22 endeavors to have its student athletes reach for their personal best by providing them with the opportunity to develop their individual and collective potentials within a competitive environment that fosters skills and endurance, self-esteem, mutual respect and enthusiasm for competition and life.

Indigenous Worldviews and Perspectives:

Sport development courses will support the student athlete's connectedness to their sport, teammates, coaches and the larger community. The course will also encourage the development of positive relationships for student athletes with each other, their coaches and teachers. For many high school aged athletes their sport becomes a significant contributor to their personal and collective identity. An additional component that supports responsive schooling is taking the classroom outside for engagement with the land and nature. Running these sport development courses in the common timetable allows flexibility in scheduling and grouping with a positive learner-centered approach that is experiential. The local focus engages the sport community and makes them a part of the learning environment and helps students access their resources. Sport Development courses put the teacher in a positive role supporting students that are engaged and growing while pursuing a passion.

BIG IDEAS

Movement awareness and skill development enhance sport specific physical literacy.	Technical and tactical development are an essential part of sport specific training.	Understanding how to develop Sport Specific strength and conditioning training.	Sport Training enhances the understanding and appreciation of the health benefits of physical activity.	Sport cultures value and encourage positive communication, fair play, leadership and teamwork in athletes

Big Ideas – Elaborations

Movement Awareness and Skill Development

Developing competencies in skills, fitness and conditioning can increase confidence and encourage lifelong participation in physical activities. Understanding how the body moves and relates to sports will enhance our overall health and fitness.

Technical and Tactical Development and Understanding

Participate daily in sport specific physical activities designed to enhance and maintain skills and fitness.
Participate in tactical activities designed to enhance sport specific knowledge.

Strength and Conditioning

Implement and reflect on a personalized fitness program.
Identify and describe how muscles produce movement in different parts of the body and how to train those muscles

Sport Training

Sport nutrition foundations - Identify and analyze the relationship between healthy eating, overall health and performance.
Competition.
Recovery.
Sleep.
Injury prevention.
Illness prevention.

Sport Culture and Teamwork

Demonstrate leadership qualities.
Participation in a sport you enjoy.
Identifying and reflecting personal goals.
Setting up strategies to achieve your goals.
Plan ways to overcome potential barriers that affect participation in fitness and conditioning activities.

Curricular Competencies – Elaborations

Movement Awareness and Skill Development

Developing competencies in skills, fitness and conditioning can increase confidence and encourage lifelong participation in physical activities. Sport-specific strategies to maximize skill development in the sport and develop sport-specific fitness strategies which will push beyond general fitness strategies.

Understanding how the body best moves to support the objectives of a specific sport.

Technical and Tactical Development and Understanding

Participate daily in sport specific physical activities designed to enhance and maintain skills and fitness. Drilling down into a detailed breakdown of sport specific strategies for both technical understanding and tactical approaches to achieving desired goals.

Participate in tactical activities designed to enhance sport specific knowledge.

Strength and Conditioning

Developing and implementing a personalized fitness program. Designing daily, weekly, monthly and yearly plans to achieve both short- and long-term sport specific objectives.

Identify and describe how muscles produce movement in different parts of the body and how to train those muscles with respect to sport specific objectives. Break down the sport specific objectives and relate to strength and conditioning strategies.

Sport Training

Sport nutrition foundations - Identify and analyze strategies for healthy eating for your sport specific objectives. Reflect and analyze nutrition intake regarding overall health and performance of your sport-specific objectives.

Competition - Identify training pace to maximize competition readiness.

Recovery - Understand and practice effective recovery strategies to maximize training readiness as quickly as physically possible.

Sleep - track, assess and practice strategies that enhance quality sleep patterns. Adjust strategies continually until quality sleep routines are realized.

Injury prevention - Study and develop injury prevention approaches to training and competition.

Illness prevention - Reflect on the above practices often and track these reflections as a conscious strategy to illness prevention.

Sport Culture and Teamwork

Participate and inspire others in a specific sport. Spread the positive energy to develop sport culture and appreciation of opportunity.

Identify and reflect on personal and team/club objectives. Continued attention to short term and long-term goals needs to be both an individual and collective strategy.

Set up strategies to achieve personal and group goals. Communicate with coaches to reflect and maximize potential to achieve personal and club/team goals.

Plan ways to overcome potential barriers, to fitness and conditioning activities. Being conscious of barriers and being proactive in addressing barriers will minimize the negative influence of such barriers.

Model leadership qualities. Always lead by example with a positive work ethic. Note the effect of other positive role models in your sport. Aspire to be a positive influence.

Content – Elaborations

Some examples of Sport Specific Content Elaborations ...

Golf

Understanding movement in golf.

The four main components of the golf swing

Rowing

Develop sport specific goals and pursue them through a regular cycle of planning and reflection.

Participate in rowing specific training throughout the rowing season.

Develop and demonstrate appropriate levels of fitness relevant to rowing, i.e. strength, stamina and speed.

Learn about physical training, rowing technique and skills training, competition and race tactics, and mental skills related to personal wellness and team building.

Learn athlete injury prevention and high-performance nutrition.

Develop and demonstrate mental training techniques needed for performance in sport and life.

Hockey

Effective skating technique- edging, striding forward and backward, crossovers, sculling, acceleration, starts/stops

Short passing, stick handling, puck control, shooting

Effective levels of fitness for components relevant to hockey such as strength, speed/agility, cardiovascular endurance and muscular **endurance**.

Snowsports

Alpine – Demonstrate balance stance forward pressure edging/ increasing speed with confidence control.

Freestyle – Demonstrate air awareness/ trampoline/ driving spins/ flips/ aerals/run strategy.

Nordic.

Develop sport specific goals and pursue them through a regular cycle of planning and reflection.

Participate in cross-country skiing specific training throughout the ski season.

Develop and demonstrate appropriate levels of fitness relevant to skiing, i.e. strength, stamina and speed.

Learn about physical training, skiing technique and skills training, competition and race tactics, and mental skills related to personal wellness and team building.

Model Athlete injury prevention and high-performance nutrition.

Learn athlete injury prevention and high-performance nutrition.

Develop and demonstrate mental training techniques needed for performance in sport and life.

Soccer

Demonstrate Fundamental game skills and advanced game skills.

Lead drills, passing, receiving, shooting.

Understand and model combination games.

Recommended Instructional Components:

Building on the foundation laid out in Sport Development 10, Sport Development 11 focuses on intermediate to advanced levels of theory and practical aspects of sport. Here are some instructional components tailored for this course, keeping in mind the emphasis on "Train to Train" and "Learn to Compete" stages:

1. Skill Development and Refinement:

- Sport-specific drills and progressions: Design drills that gradually increase complexity and challenge students to refine their fundamental and advanced sport skills.
- Video analysis: Utilize video recordings to analyze student performance and provide feedback on technique and form. This allows students to visualize areas for improvement.
- Guest coaches: Invite experienced coaches or athletes to lead workshops or clinics on specific skill areas within the chosen sport.
- Peer coaching: Encourage students to coach and provide constructive feedback to one another, fostering collaboration and leadership skills.

2. Introduction to Tactical Awareness:

- Game situations: Introduce drills and simulations that replicate real-game situations, requiring students to apply learned skills and make tactical decisions.
- Opponent analysis: Teach strategies for analyzing opponents' strengths and weaknesses to develop effective game plans.
- Tactical discussions: Facilitate discussions on tactical strategies used in the chosen sport, encouraging students to think critically about game situations.
- Case studies: Analyze real-world examples from professional sports to illustrate successful tactical approaches.

3. Building a Training Foundation:

- Personalized fitness plans: Guide students in designing personalized fitness plans that target specific areas of development based on their sport's demands.
- Strength and conditioning training: Implement strength and conditioning exercises tailored to improve sport-specific performance (e.g., power, agility, endurance).
- Nutritional guidance: Provide basic education on sports nutrition, emphasizing the importance of healthy eating habits for optimal performance and recovery.
- Training logs: Encourage students to maintain training logs to track their progress, identify areas for improvement, and reflect on their training experiences.

4. Leadership Exploration and Development:

- Leadership roles: Assign leadership roles within the classroom or training environment, allowing students to practice communication, delegation, and motivational skills.
- Mentorship opportunities: Connect students with younger athletes within the same sport, providing an opportunity to mentor and share their knowledge.
- Leadership workshops: Conduct workshops on leadership qualities specific to the sports environment, such as communication, conflict resolution, and team building.

5. Personal Growth and Goal Setting:

- Goal setting exercises: Guide students in setting both short-term and long-term goals related to their athletic development.
- Reflection journals: Encourage students to maintain personal reflection journals to track their progress, challenges, and successes, motivating them to stay focused.
- Mental skills training: Introduce basic mental skills training techniques, including visualization, stress management, and positive self-talk, to enhance performance and resilience.

Remember:

- Integrate technology like fitness tracking apps or online resources to support learning and self-monitoring.
- Consider incorporating community engagement opportunities, such as volunteering with local sports organizations or participating in sportsmanship initiatives.
- Ensure a safe and inclusive learning environment that fosters positive sports culture and fair play.
- By implementing these instructional components, Sport Development 11 can effectively prepare students for the transition to the "Compete to Win" stage in Sport Development 12.

Recommended Assessment Components: Ensure alignment with the [Principles of Quality Assessment](#)

Additional Information:

The intent of this course template is that it can be carefully addressed in a sport specific manner via a conduit of a professionally qualified coach and educators. Although the sports may vary, the content that attributes athletic excellence are consistent across the Big Ideas. Sound pedagogy must be applied in combination with sport specific training and coaching.

Education

B.C. GRADUATION PROGRAM BOARD/AUTHORITY AUTHORIZED (BAA) COURSE FORM

PART A: BAA COURSE VERIFICATION STATEMENT – To be completed by District Superintendent, Independent School or Offshore School Principal

Prior to submitting the attached BAA Course Framework to the Board of Education or Independent School Authority (Board/Authority) for approval, I Joe Rogers, Superintendent of Schools verify that I have reviewed the BAA Course to ensure that it is fully compliant with the *School Act* (if offered by a Board or Offshore School), the *Independent School Act* (if offered by an Independent School Authority), the *Board Authorized Course Order*, policy document *Board/Authority Authorized Courses: Requirements and Procedures Guidebook*, and for BAA ELL courses, the ELL Guidelines: *Template for Board/Authority Authorized Language Acquisition/Culture Courses at the Grade 10, 11, 12 Levels*.

By signing below, I verify that the BAA Course:

- ✓ is not preparatory, remedial or modified
- ✓ does not significantly overlap with provincial curriculum Content
- ✓ name reflects the subject area and includes the Grade level
- ✓ assigned Grade reflects the appropriate level of instruction
- ✓ credit value appropriately reflects the length and scope of the course
- ✓ synopsis clearly outlines what a student has gained when the course is completed
- ✓ goals are general statements of intention that give structure to the curriculum
- ✓ rationale outlines the importance of the learning to the student and society
- ✓ embeds Aboriginal Worldviews and Perspectives
- ✓ organizational structure outlines the Content, Curricular Competencies, and Big Ideas
- ✓ learning standards are assessable and observable and can be understood by students and parents
- ✓ recommended instructional component clarifies the learning standards and provides a range of pedagogical opportunities
- ✓ recommended assessment component aligns with the Principles of Quality Assessment
- ✓ learning resources are age appropriate, support learning standards and diversity of learning rates and styles.

Course Name: Sport Development 11

Grade: 11

TRAX Code:
(e.g. YVPA)

YHRA 11A

School District Name and Number: 22 (Vernon)

Independent School Name and Number:

Name of District Superintendent/Independent or Offshore School Principal: Joe Rogers, Superintendent of Schools
